

# Atheists Advertise Like This

Every issue of *Scientific American* magazine has a 10.5" x 2.75" advertisement by the Freedom From Religion Foundation. Every ad begins with the words, "In Science We Trust."

The ad from July 2021 proclaims, "Let's reinvent a reverence for our real creator—Nature." This reveals a common attribute of our sinful nature: worshipping nature. God says in Romans 1:25 (EHV), "Such people have traded the truth about God for the lie, worshipping and serving the creation rather than the Creator."

The ad on the right is reproduced full size with the bottom two inches cut off, since the print *Scientific American* magazine is two inches taller than the print *LSI Journal*.

---

This issue of the *LSI Journal* will briefly introduce you to atheist claims, a Christian response to those claims, and how we may lovingly witness about Jesus to these lost souls.
